

## Full Scholarship – STEM and Business – Texas A&M

Dear Sirs:

The Brockman Scholars Foundation invites applications for a merit-based full scholarship that covers five years of study on the College Station campus of Texas A&M University.

The scholarship supports four years of undergraduate studies in an approved program of STEM (Science, Technology, Engineering, Mathematics) as well as the one-year MS Business graduate degree at Texas A&M's Mays Business School.

Please encourage your top students to apply for this prestigious full scholarship via the application portal at [www.brockmanfoundation.org](http://www.brockmanfoundation.org).

The portal is open now to receive applications for studies beginning in the 2019-20 academic year. **The application deadline is at 5:00 p.m. U.S. Central Time on September 30, 2018.**

The Brockman Scholarship covers tuition fees in full, room and board, transportation, books and supplies, an overseas study opportunity, and internship opportunities.

American citizens resident anywhere in the world may apply for the scholarship. An international (non-U.S.) student may apply for the scholarship as long as they can submit, with their application, sufficient evidence that they have a visa allowing them to study in the United States. All applicants, including international students, must have an SAT or ACT score (not an equivalent).

It is imperative that applicants understand that they are applying for a scholarship that provides for both an undergraduate and post-graduate degree. It is a condition of being awarded the scholarship that the recipient will enroll in, and successfully complete, both the four-year undergraduate STEM degree and the MS Business graduate degree program..

You can download and print information about the scholarship for posting on your scholarships bulletin board by going to [www.brockmanfoundation.org](http://www.brockmanfoundation.org).
