Secretary

November 2, 2017

At the request of local law enforcement NWISD placed campuses in our lockdown protocol. Law enforcement was dealing with a situation in the community and asked we enact these protocols as a precaution. There are no campuses where an incident occurred. As always, we want to take all steps needed to protect our students.

By 9:00 am campuses were released by the Walker County Sherriff's Office from lockdown and operating as normal. Based on the helicopter flying over the Junior High campus, we kept it on a modified lockdown. All exterior doors were locked and movement between buildings was supervised. Staff were also positioned around campus monitoring exterior movements. We will continue this until we are notified the other suspect has been apprehended. We appreciate the efforts and support of our teachers, staff, and administration. We also appreciate the communication and concern our local law enforcement provided.

As a review, when we place schools on like lockdown our goal is keep students in a safe place with minimal to no movement. During that time, we do not allow public to enter or exit campus. We realize that in this time, our stress levels can increase. We appreciate your understanding.

Dr. Darol Hail, Superintendent
